Commissioner for Patents

In response to applicant's Tel conversation on 10/12/2005 regarding the last Office action, the following corrective action is taken. The period for reply of 1 month in said Office Action is restarted to begin with the mailing date of this letter.

<b>Office Action Summary</b>	Application No. 10/502,083	Applicant(s) LERCHL ET AL.	
	Examiner Mohammad Meah	Art Unit 1652	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The claims 1-25 are pending in the instant office action.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-4, 6-11, 22-25 drawn to a nucleic acid encoding elongase.

Group II, claim 5, drawn to protein having amino acid sequence encoded within the nucleic acid of claim 1.

Group III, claims 12-17 drawn to processes of production of PUFAs.

Group IV, claims 18-21, drawn to oil, lipid, fatty acid and compositions comprising PUFAs.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature of Group I (DNA), Group II (protein), group IV (oil, fatty acid) are different because they involve different compounds having different properties and structures.

The only shared technical feature of group I-IV claims is nucleic acid of group I. Prior art teaches the DNA that encodes elongase (WO9964616). Therefore, the only shared technical feature of group I-V claims does not constitute a special technical feature as defined in PCT Rule 13.2. because prior art teaches technical feature of group I.

This application contains claims directed to more than one species of transformed organisms, i.e., microorganism, nonhuman animal and plant. These species are deemed to lack of unity of invention because they are not so linked to form single general inventive concepts under PCT Rule 13.1. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: microorganism, nonhuman animal and plant each belongs to distinctive species of distinct function, utility and properties.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
